

177HF

Foscavir® 24 mg/ml Solution for Infusion

Foscarnet trisodium hexahydrate

For intravenous use.

Each 250 ml bottle contains 6g of foscarnet trisodium hexahydrate.

Also contains water for injection and hydrochloric acid (E507).

Dilute before injection into a peripheral vein.

Read the package leaflet before use.

Do not store above 30° C. Do not refrigerate.

Refrigeration or freezing may cause precipitation. If precipitation occurs, by keeping the bottle at room temperature and shaking repeatedly, precipitate can be re-dissolved.

Keep out of the sight and reach of children.
