

POLYDINE®

Ointment

Patient package insert in accordance with the Pharmacists' Regulations (Preparations) - 1986

This medicine is marketed without a doctor's prescription.

The active ingredient and its concentration: Povidone Iodine 10%.

For the list of inactive and allergenic ingredients in the preparation, see Section 6 "Further Information".
Read the leaflet carefully in its entirety before using the medicine. This leaflet contains concise information about the medicine. If you have any further questions, refer to your doctor or pharmacist. You must use this medicine correctly. Consult your pharmacist if you need additional information.

1. **What is this medicine intended for?**

This medicine is intended for the antiseptic treatment of wounds and mild burns, and for the treatment of skin infections.

• **Therapeutic group:** Antiseptics (disinfectants).

2. **Before using this medicine:**

Do not use this medicine if:

Do not use if you are sensitive (allergic) to any of the preparation's ingredients or to iodine.

If you are sensitive to any food or medicine, inform the doctor before using the medicine.

Special warnings associated with use of this medicine:

- **If you are taking or have recently taken other medicines, including nonprescription medicines and nutritional supplements, inform the physician or pharmacist** in order to avoid risks or inefficacy resulting from drug interactions.
- Avoid using on large areas of the skin. A doctor should be consulted before treating deep wounds.
- Do not start treatment without first consulting a doctor if you suffer, or have suffered in the past, from impaired thyroid gland function.
- **Pregnancy and breastfeeding:** If you are pregnant or breastfeeding, consult a doctor or pharmacist before using the medicine.

3. **How should you use this medicine?**

Consult the doctor or pharmacist if you have any doubts.

Attention: Do not swallow! This medicine is intended for external use only.

How to use the preparation - general directions:

- Apply to the wound or affected area 2-4 times daily
- The ointment can also be applied to a gauze pad and covered with a bandage.
- If there is no improvement in your condition within a week, consult your doctor.
- Stains on your body or on cotton fabric can be cleaned by rinsing in water.

Do not take medicines in the dark! Check the label and dose each time you take medicine. Wear glasses if you need them.

4. **Side effects:**

- As with any medicine, using **Polydine Ointment** can cause side effects in some users. Do not be alarmed when reading the list of side effects. You may not suffer from any of them.
- In addition to the desired effect of the medicine, side effects, such as persistent rash, irritation or swelling, may occur during its use.
- If one of the side effects worsens, or if you suffer from a side effect not mentioned in this leaflet, you must consult your doctor.

Reporting of side effects: Side effects can be reported to the Ministry of Health by clicking on the link "Report Side Effects due to Drug Treatment" found on the Ministry of Health homepage (www.health.gov.il) that directs you to the online form for reporting side effects, or by entering the link: <https://sideeffects.health.gov.il>

5. How should the medicine be stored?

- **Avoid poisoning!** This medicine, and all other medicines, must be kept in a safe place out of the reach and sight of children and/or infants, to avoid poisoning. If a child has accidentally swallowed the medicine, proceed immediately to a hospital emergency room and bring the package of the medicine with you.
Do not induce vomiting unless explicitly instructed to do so by the doctor.
- May be used for 36 months after the bottle is first opened. Do not use this medicine after the expiry date (exp. date) that appears on the packaging. The expiry date refers to the last day of that month.
- Do not store at a temperature higher than 25°C.
- Store in the original packaging.
